

FEDERATED HUMAN SERVICE CO-OP

Fact Sheet

Company: The Federated Human Service Cooperative (Federated, HSC®) is a national co-op owned and directed by local HSC® certified companies (Human Service Cooperatives). The Federated HSC provides a resource of supports that benefit its member owners including but not limited to: HSC development, HSC co-op certification, insurance, legal, accounting, business, mediation, purchasing, and technology.

Description: The Federated HSC:
Establishes supports as determined by the membership
Creates and maintains partnerships
Provides a mutual support network consisting of HSC certified companies and professionals in the private and public sector

Mission: Our goal is simple. Yet powerful: Namely, to assist in the creation of Human Service Cooperatives. And to support those efforts in the most effective, efficient manner possible. Our vision is clear: To support the movement of Self-determination. Self-direction. And Self-empowerment. The kind of empowerment that gives people control of their lives. Power over the choices. And control of their human services. We will support people in their unalienable right to live better, happier, more empowered lives.

To create an environment in which every Human Service Cooperative is supported within a compassionate, informative, and responsive network. A network created by individuals. For individuals.

A network that shares resources, human energy, and information. It is our express purpose to serve the needs of our membership. While establishing and maintaining partnerships that provide expertise and ongoing support.

In this way, together, human beings can help themselves. Such is the power of compassion. The power of freedom. And the power of the individual, amplified.

This is our mission, Our vision, Our promise. And, above all, our passion.
